DESIGNING A PROJECT

DESIGNING RESPONSIBLE PROJECTS

RESPONSIBLE

DATA FORUM
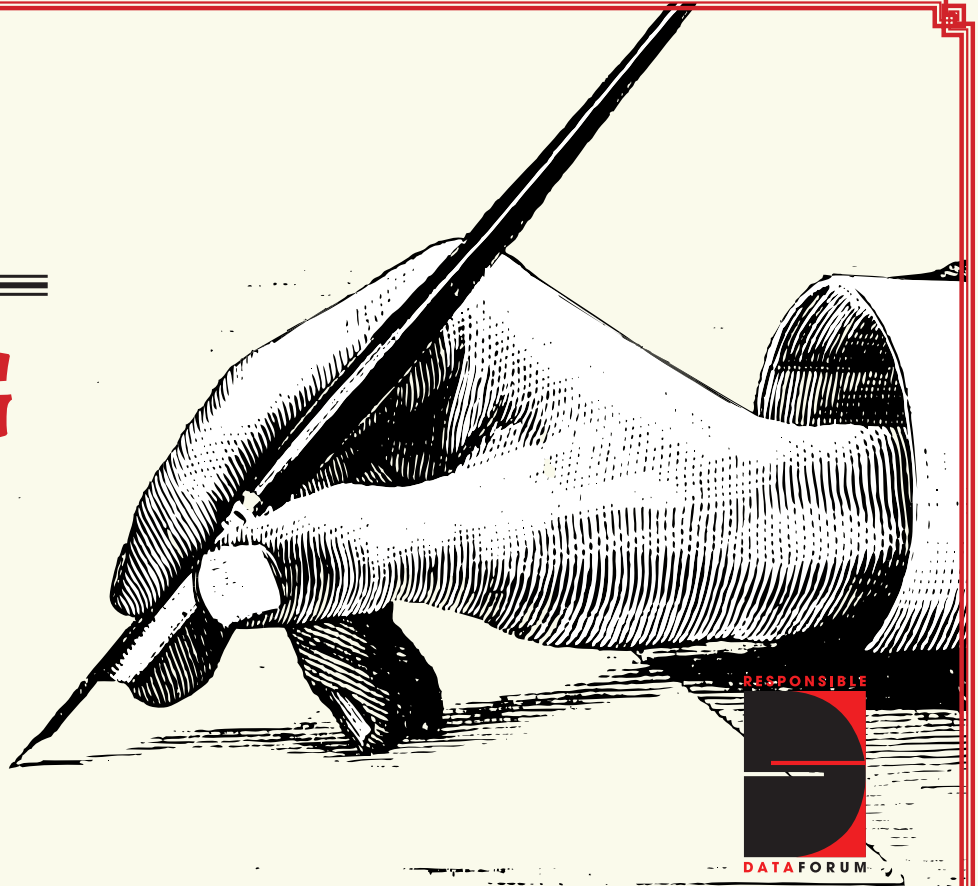

Designing responsible projects

- » Don't design alone
- » Plan ahead
- » Keep a timeline in mind
- » Factor in data
- » Wait... why data?
- » Get permission

- » Plan for failure
- » Budget what you need
- » Check yourself
- » Document the process

Don't panic, plan!

assessing risks and threats

» Which risks can be eliminated entirely and how?

» Which risks should be addressed first?

» How can risks be reduced / better managed?

» *Contingency planning* is important too!

ASSETS	RISKS	ADVERSARIES	THREATS	ADVERSARY CAPACITIES	LIKELIHOOD	MITIGATION STRATEGY

Budgeting

Do we have a line item for that? Oops....

- » Support from external providers
- » Hosting and storage options
- » Required team skills
- » Project termination
